

Vacation Services from Purchasing Power®

According to HR Managers, when employees use more of their available vacation time:

85% say they would be more productive.	75% say they'd perform better.	67% say they'd be more engaged. ¹

But why aren't employees using their vacation days?

Employees don't want to get stuck with paying for their vacation for a long time. In fact, a \$2,000 vacation paid for with a credit card with 18% interest can take over ten years to pay off if you only make the minimum payment.² While the memories will last for years to come, the payments shouldn't.

Vacation Packages from Purchasing Power

Through Purchasing Power, employees now have access to a responsible, manageable way to buy a wide variety of getaway options and pay over 6 or 12 months.

Employees can choose from a selection of some of the most popular destinations and tailor their experience with credits and gift cards for extras, like spa treatments, theme parks and golf outings.
